

SKI ALLOCATION POLICY 2017/18

The Maroochydore Surf Life Saving club is offering single ski allocations this season to applicants who are deemed suitable. Please note that the price of these allocations are approximately 1/14th of what a new ski costs.

The cost of this allocation will be \$250 for a full year (September 1st 2017 – August 31st 2018). Once a contract has been signed, this money must be paid to the club before ownership is taken of the ski.

This is open to all club members, but preference will be given to competitors in the U17 age group. It is expected that after 2 years of using a club craft you will purchase your own ski (Can apply for a club subsidy).

The skis will be numbered and named with stickers, and personal racks will be allocated. This will show general club members that they are not to use these allocated skis.

The following terms must be abided by:

- Once a ski is allocated it is to be treated like YOUR OWN.
- Only the person whose name appears on the allocation contract is to use this ski.
- It is to be washed down prior to every use.
- Covers must be used when in transit.
- Any damage is to be dealt with as per the club policy, which is outlined below. If you are to damage your ski outside of competition it is expected you get it fixed ASAP to avoid long-term damage.
- Each ski will be numbered and audited appropriately at the completion of the contract. A photo of the ski will be taken prior to the allocation. It is expected this ski will be returned in the same condition, unless otherwise acknowledged by the area captain.
- If you have a ski allocated to yourself, it is expected you turn up to training regularly. If you do not come to training for an extended period without a reasonable reason, this ski will be taken off you without refund.

Damaged craft policy:

- The club will only pay for craft which is damaged DURING COMPETITION. It is your responsibility to fix your craft ASAP if it is damaged outside of competition.
- You must report the damage your area captain within one week to gain financial assistance.
- The club will pay 50% of the total repair cost.

If you have any questions regarding any of this please contact the Ski Captain, Todd Grace.
